The 7th Workshop on RFID Security (RFIDsec) June 26–28, 2011 UMass Amherst - USA

RFIDsec is the premier workshop devoted to security and privacy in Radio Frequency Identification (RFID) with participants throughout the world. RFIDsec aims to bridge the gap between cryptographic researchers and RFID developers through invited talks and contributed presentations. About two thirds of the past workshop attendees hail from academia, and one third from industry and government. The workshop focuses on approaches to solve security and data-protection issues in advanced contactless technologies.
